

BF350B-PUR Profile Wrapping Machine (Scraping, coating type)

Man-Machine Interface

Usage Example

Glue Spreading Machine Head

Glue Machine

Features ▶▶▶▶▶

The machine is designed to laminate paper, PVC, PET, venees and other materials onto complex profile surfaces of a range of materials.

MODEL	MZB73032
Max. wrapping width	350mm
Max. processing thickness	120mm
Wrapping speed	0-50m/mm
Total power	13kw
Power of main motor	2.2kw
Power of dusting motor	0.37kw3
Power of the PUR glue machine	8kw
Electrical control manner	PLC control, touch screen
Overall dimension of main machine	5780 x 900 x 1900mm
Overall dimension of glue machine	1030 x 420 x 1600mm
Weight	3200kg
