

## HD821JD High Efficiency Automatic Edge Bander Machine

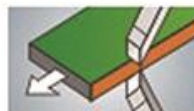

Buffing 2

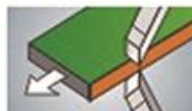

Buffing 1

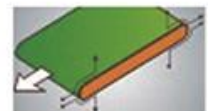

Flat Scraping

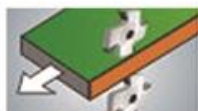

R2 Scraping

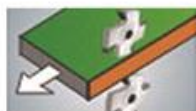

R1 Scraping

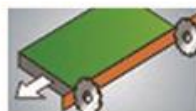

4 Cutters High Speed  
Corner Trimming

R2 Trimming

R1 Trimming

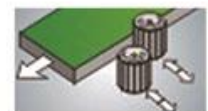

Double Rails  
End Cutting

Glue Pot 2

Glue Pot 1

Pre-Milling

Double pan hinge

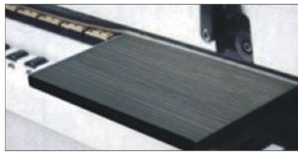

Dual Glue Pot System instant edge change

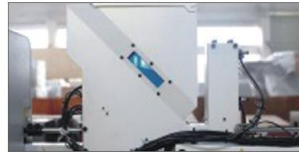

4 cutters high speed corner trim unit

Touch control screen to re-adjust entire machine for various edge materials

Caterpillar feed: stable, faster and better

Pre-melt unit: with new design of double cylinders glue pushing system

Neck: double slide faster

Double polishing, polishing is superior

Flat scraping removes glue threads

## Features ▶▶▶▶▶▶

Double glue pot system | Automatic re-adjustment for edging thickness | Touch screen interface

MODEL	HD821JD
Panel Thickness	10-60mm
Panel Length	150mm
Panel Width	60mm
Edge Thickness	0.4-3mm
Feed Speed	20, 23, 26m/min
Working Pressure	0.6MPa
Total Power	21.25kw
Overall Size	10020x870x1700mm
Weight	3690kg
