

SPR-RP1300

Features ▶▶▶▶▶▶

High speed precision calibrating head | Precision indicator down to 10 Micron

High speed and heavy duty sander. More accurate, more efficient and more robust, it is the new benchmark in the industry.

MODEL	SPR-RP1300
Max. working width	1300mm
Min. working length	570mm
Working thickness	10-160mm
Abrasive belt size	2200 x 1330mm
Feeding speed	5-30m/min
Total motor power	79.12kw
Working air pressure	0.6MPa
Volume of dust collection device	15260m ³ /h
Overall dimensions	2536 x 3110 x 2245mm
Weight	6300kg
